

4" Wall Mount Speaker with Fire Dome, 20W

DESCRIPTION

The NVS-EN20WS is a commercial public address speaker designed for background music and PA systems in environments such as schools, offices, hotels, and airports. Compliant with EN54-24 standards, it features selectable power outputs of 20W, 10W, 5W, and 2.5W with an 8Ω impedance. The speaker utilizes a 4" woofer and a 1" silk tweeter in a two-way system for high-quality audio performance. Built with a fire-resistant ABS enclosure, black metal grille, and fire-resistant components including a Phoenix terminal, thermal fuse, and 95°C fire-resistant cable, it ensures safety in emergency situations. Installation is made easy with the supplied stainless mounting bracket, allowing for quick and secure setup.

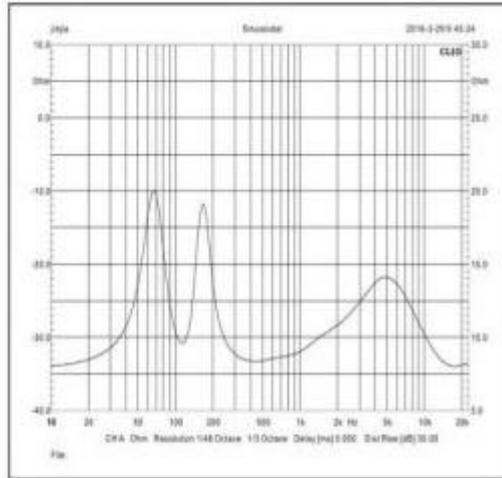

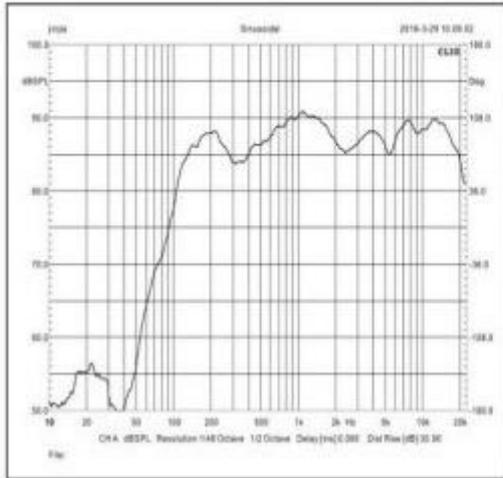

FEATURES

- ◉ EN54-24 Compliant: Meets fire safety standards for voice alarm systems
- ◉ Ideal Applications: Perfect for background music systems in schools, offices, hotels, and airports
- ◉ Power Output: Selectable 20W, 10W, 5W, and 2.5W with 8Ω impedance
- ◉ Driver System: 4" woofer and 1" silk tweeter in a two-way speaker configuration
- ◉ Construction: Fire-resistant ABS enclosure and black metal grille for durability
- ◉ Safety Features: Includes fire-resistant Phoenix terminal, thermal fuse, and 95°C fire-resistant cable
- ◉ Easy Installation: Quick setup with supplied stainless steel mounting bracket

Specifications	
Model	NVS-EN20WS
Power Taps	20W, 10W, 5W, 2.5W & 8Ω
Line Input	100V or 70V & 8Ω
Frequency Range	100Hz - 20kHz
Sensitivity	88±3dB
Max SPL	101dB
IP Rating	IP55 (waterproof)
Driver	4" woofer and 1" silk tweeter in a two-way speaker system
Material	Fire-resistant ABS enclosure with black metal grille
Mounting Method	Easy installation with supplied stainless steel mounting bracket
Dimension	245×170×140mm
Weight	2.5kg
