

Pendant Speaker ,30W (White)

DESCRIPTION

The NVS-EN30PS-L is an EN54-24 certified 30W Pendant loudspeaker engineered for voice alarm systems, ensuring compliance with stringent safety standards. Designed for versatile operation, it supports both 100V line distribution and 8 Ohm impedance, making it suitable for varied installation requirements. Featuring a robust Euro Phoenix connector, the loudspeaker facilitates secure and reliable connections in critical applications. With high sound pressure levels and optimized frequency response, it ensures exceptional speech intelligibility for paging systems and delivers balanced audio quality for background music (BGM) applications. Its durable construction and acoustic performance make it ideal for integration into public address and voice alarm systems.

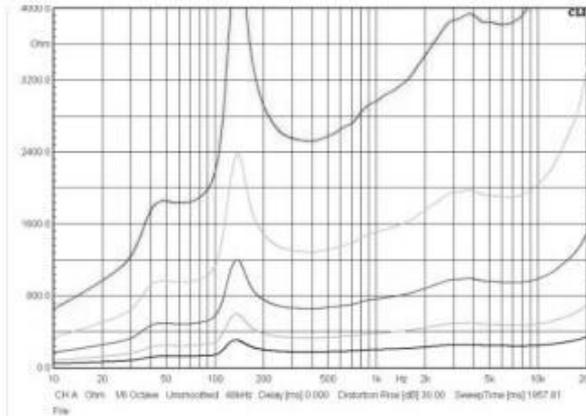

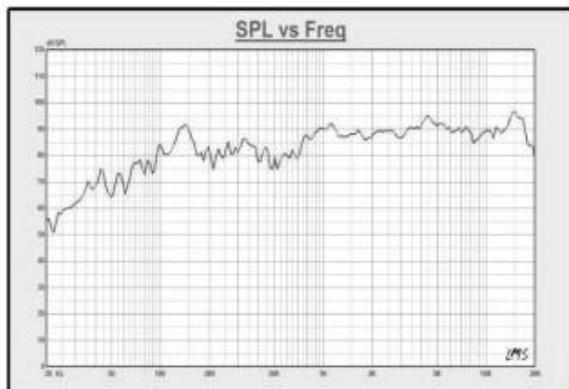

FEATURES

- Certified to EN54-24 standards for voice alarm systems
- Pendant-style indoor/outdoor speaker for commercial music and paging applications
- Ideal for use in restaurants, offices, auditoriums, gymnasiums, and shopping malls
- IP44 rating for indoor protection
- UV- and fire-resistant ABS cabinet for reliable, long-lasting performance
- Equipped with a 5.25" full-range PP woofer for clear and balanced sound
- 100V transformer with power taps at 30W, 15W, 7.5W, and 3.8W, plus an 8Ω bypass option
- Fitted with 95°C fire-resistant cables and a thermal fuse for enhanced safety
- Pendant speaker design ensures uniform sound dispersion
- Supplied with a safety hanging wire for secure mounting

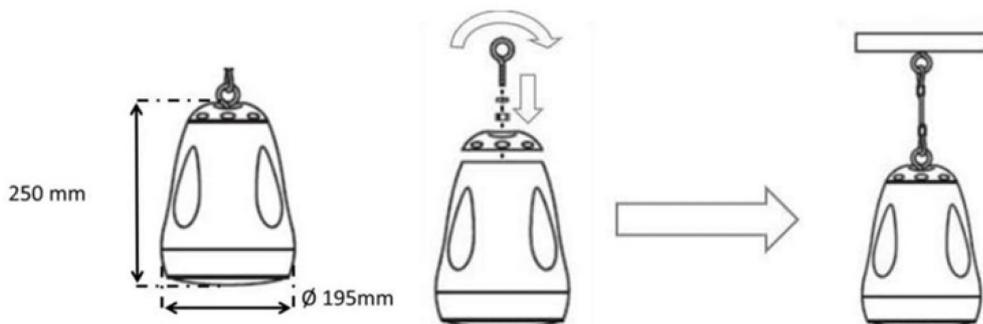

Specifications	
Model	NVS-EN30PS-L
Rated Power	30W
Driver Unit	5.25" woofer and 1" tweeter 2-way speaker system
Material	UV-fire resistant ABS enclosure
Frequency Response	65Hz-20KHz
Sensitivity(1m,1w)	90dB
Maximum SPL (1m)	104dB
Input Voltage/Impedance	100V, 8Ω
Power Rating Options @100V	30/15/7.5/3.8W
Input Connector	Fireproof phoenix connector
Color	White
Dimension	Ø 195×250mm
Weight	2.4kg
